TEXT FOR ANTHEM: A FEAST OF THANKSGIVING

For the sacred dawning morning of creation,
For the cycling growing spring of our green earth,
For each quiet moment in Your perfect presence,
For Your precious call to life at each new birth,
We feast upon and offer thankful praises,
We raise our gifts in humble adoration,
Your lifting Word in every new creation.

For the process of our growth through every passage,
For the work that you have put into each hand,
For the joys and trials of raising and being children,
For the tilling of our souls and of the land,
We feast upon and offer thankful blessing
We raise our lives to You in adoration,
Your guidance and good will throughout Creation.

For the twilit skies that bring our days to closing,
For the naked barren land of wither's chill,
For wisdom gathered through a life of trial,
For Your harvest of our souls grown to Your will,
We feast upon and offer thankful living
We raise our song to You in adoration
Your loving heart, fulfilling all creation.
